07/08/2025	General Motors	Manufacturer Safety recall issued - Transport Canada# 25350 - Recall #N242487090 TAILGATE MAY OPEN UNEXPECTEDLY - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. ➞ Learn more about this recall Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2023 - 2024 model year Chevrolet Silverado and GMC Sierra Light Duty (1500 series) vehicles built between August 2, 2023 and March 8, 2024, located in Canada, and equipped with power-unlatching tailgates. Under certain conditions, water may intrude into these vehicles' tailgates and come into contact with the electronic gate-release switch, potentially causing a short circuit. The tailgate may inadvertently unlatch while the vehicle is in Park. This is an expansion of GM Recall N232426400 (TC 2024-061). Under certain circumstances the tailgate design permits water to intrude into the gate, which in combination with an unsealed switch can result in a short circuit. Customers may notice the tailgate has inadvertently opened. If the driver does not manually close the gate before beginning a drive, cargo in the bed of the truck may exit the vehicle and become a road hazard, increasing the risk of a crash. Until the recall is completed, owners should check that the tailgate closed and latched before driving. If the driver does not manually close the gate before beginning a drive, cargo in the bed of the truck may exit the vehicle and become a road hazard, increasing the risk of a crash. Remedy: Dealers will replace the exterior touchpad switch assemblies.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
