| <div> <p>Description: An improperly formed wiper arm head joint may not properly form the splines of the head joint on the wiper arm, which can allow the joint to strip and result in the wiper arm failing to operate properly when the system is activated. Prior to complete wiper system failure, the driver may experience one or both wiper arms that do not clear the windshield properly, or that the wipers are not in their proper rest positions.</p> <p>An improperly functioning wiper system may, in certain circumstances, lead to a diminution in road visibility which can cause vehicle crash without prior warning.</p> <p>Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to torque the wiper nuts to the required torque.</p> </div> | | | |
| 03/17/2022 | | FCA US LLC | Manufacturer Safety recall issued - NHTSA #22V-140 - Recall #Z20 2019-2022 HD RAM, 2021-2022 WD - ESC - Status: Remedy Available Click here for a copy of the owner letter for this Recall or call 1- 800-853-1403 if you have any questions or need additional information on this recall. |

Learn more about this recall

Description: Federal Motor Vehicle Safety Standard ("FMVSS") 571.126 S5.3 ESC Malfunction requires that "The vehicle must be equipped with a telltale that provides a warning to the driver of the occurrence of one or more malfunctions that affect the generation or transmission of control or response signals in the vehicle's electronic stability control system." Suspect vehicles may not display the ESC malfunction indicator lamp under certain malfunction conditions that affect the generation or transmission of control or response signals in the vehicle's electronic stability system, leaving the driver unaware. Unexpected performance of the ESC system with no warning to the driver can cause a vehicle crash without prior warning.

Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to update the ABS control module software.

Learn more about this recall

Description: FCA US will conduct a voluntary safety recall on all affected vehicles to inspect the tailgate striker alignment to the box latch and adjust if necessary.

An unintended tailgate opening while driving may result in a loss of unsecured cargo, potentially creating a road hazard to operators and occupants of other vehicles and can cause such vehicles to crash without prior warning.

Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to inspect the tailgate striker alignment to the box latch and adjust if necessary.

Have Questions? Please visit our Help Center at www.carfax.com.

**Glossary****Commercial**

Vehicle was registered for business purposes.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
