- NHTSA #91V110
- Recall #M01 1981-1990 MY LAND CRUISERS REPLACEMENT OF THE FUEL TANK
- Status: Remedy Available

Locate an authorized Toyota dealer near you to schedule an appointment

 **Learn more about this recall**

Description: Continuous driving under extremely severe conditions i.e. high ambient temperature and heavy load, can create high vapor pressure within the fuel tank, and the resultant stress may cause excessive load to those points where the fuel tank separator is welded to the interior of the fuel tank.

If the vehicle continues to be driven under these conditions, the repeated high pressure may eventually cause a crack in the tank, and in the worst case, fuel leakage. Fuel leakage can lead to fire when near an ignition source.

Remedy: Replace the fuel tank with an improved tank.

**Glossary****Failed Emissions Inspection**

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Mileage Inconsistency

If an odometer reading is less than a previous reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or a qualified mechanic.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
