<div style="border: 1px solid #00aaff; padding: 10px;"> <p><b>Description:</b> Due to moisture accumulation over time, both reverse lamps on the subject vehicles can stop working. If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.</p> <p>If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.</p> <p><b>Remedy:</b> The remedy, when available, will involve replacement of both reverse lamp assemblies with improved assemblies, FREE OF CHARGE. Additionally, the wire harnesses will be repaired for any vehicles identified to have corrosion that has extended into the wire harness connector, FREE OF CHARGE. At this time, Toyota estimates the remedy will begin to be available in the 4th quarter of 2025, and we anticipate rolling out this remedy in phases. This remedy will also address other conditions resulting from the moisture intrusion (see FAQ for additional details).</p> </div>

11/06/2025		Toyota Motor Sales, USA, Inc.		<b>Manufacturer Safety recall issued</b> - NHTSA #25V767 - Recall #25TB14 SAFETY RECALL - 25TA14 (INTERIM NOTICE 25TB14) - CERTAIN 2022-2024 MODEL YEAR TUNDRA - ENGINE MAY STALL DURING DRIVING - Status: Remedy Not Yet Available   <b>Learn more about this recall</b>
<div style="border: 1px solid #00aaff; padding: 10px;"> <p><b>Description:</b> There is a possibility that certain machining debris may not have been cleared from the engine when it was produced. In the involved vehicles, this can lead to potential engine knocking, engine rough running, engine no start, and/or a loss of motive power.</p> <p>A loss of motive power while driving at higher speeds can increase the risk of a crash.</p> <p><b>Remedy:</b> Toyota is currently preparing the remedy. When it is available, owners of the subject vehicles will be notified to return their vehicles to a Toyota dealer. Using an inspection software, dealers will evaluate the #1 main bearing and collect available vehicle drive data to confirm the condition of that bearing. If the inspection software cannot confirm that the bearing will be free from abnormal wear due to this condition, dealers will replace the engine. The remedy will be provided free of charge. Toyota plans to contact customers directly in phases when the remedy is available for their vehicle. As a general matter, the planned phases would be based on vehicle age. In the meantime, owners with vehicles experiencing symptoms, such as engine knocking, rough running, or no-start, should contact their Toyota dealer.</p> </div>

## Glossary

### CARFAX Well Maintained - Regular Oil Changes

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

### Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013. This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.
