Description: Due to moisture accumulation over time, both reverse lamps on the subject vehicles can stop working. If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

If this occurs, the driver's view to the rear can be limited when backing during low ambient light conditions, and there may be no indication to others that the vehicle is operating in reverse. This can increase the risk of a crash.

Remedy: The remedy, when available, will involve replacement of both reverse lamp assemblies with improved assemblies, FREE OF CHARGE. Additionally, the wire harnesses will be repaired for any vehicles identified to have corrosion that has extended into the wire harness connector, FREE OF CHARGE. At this time, Toyota estimates the remedy will begin to be available in the 4th quarter of 2025, and we anticipate rolling out this remedy in phases. This remedy will also address other conditions resulting from the moisture intrusion (see FAQ for additional details).

Remedy: Any authorized Toyota dealer will update the multimedia display software FREE OF CHARGE. In addition to remedying the noncompliance, the remedy software will also contain various other software optimizations and bug fixes such as: - Improvements for the reliability of Android Auto and Apple CarPlay connectivity; - Reducing certain unnecessary prompts in the user interface; - Defaulting to the last source screen upon start up; and - Optimizing the software to ensure backup image display time.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
