 [Learn more about this recall](#)

Description: Some areas of the 12.3 combination meter display may become blank during startup and would not show some warnings/indicators to the driver. This causes the vehicles not to meet certain federal safety requirements.

Continued driving with these warnings not displayed could delay the driver taking the appropriate action and increase the risk of a crash or injury.

Remedy: Any authorized Toyota dealer will update the software of the combination meter, FREE OF CHARGE. We understand that our customers time is valuable. Therefore, Toyota is preparing an option for guests to obtain the software update via OTA in the near future.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
