Manufacturer Safety recall issued
- NHTSA #24V060
- Transport Canada# 24061
- Recall #N232426400 TAILGATE MAY OPEN UNEXPECTEDLY
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2020 - 2024 model year Chevrolet Silverado Heavy Duty (2500/3500 series) and GMC Sierra Heavy Duty (2500/3500 series) vehicles in the US and Canada, and certain 2020 - 2023 model year Chevrolet Silverado 1500 series and GMC Sierra 1500 series vehicles in Canada, equipped with power-unlatching tailgates. Under certain conditions water may intrude into these vehicles' tailgates and come into contact with the electronic gate-release switch, potentially causing a short circuit. The gate may inadvertently unlatch while the vehicle is in Park. If the driver does not manually close the gate before beginning a drive, cargo in the bed of the truck may exit the vehicle and become a road hazard, increasing the risk of a crash. Until the recall is completed, owners should check that the tailgate closed and latched before driving.

If the driver does not manually close the gate before beginning a drive, cargo in the bed of the truck may exit the vehicle and become a road hazard, increasing the risk of a crash. Until the recall is completed, owners should check that the tailgate closed and latched before driving.

Remedy: Dealers will replace the exterior touchpad switch assemblies.

07/16/2024

General Motors

Manufacturer Customer Satisfaction Program issued

- Program #N232414840
INTERMITTENT LOSS OF TRAILER BRAKES
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this campaign.

⊖ **Learn more about this campaign**

Description: On certain 2020 and 2024 model year Chevrolet Silverado 2500HD/3500HD and 2024 model year GMC Sierra 2500HD/3500HD vehicles equipped with Integrated Trailer Brake (RPO JL1), if the trailer battery is charged to a higher voltage than the vehicle battery, it may cause the voltage to feed back into the vehicle battery and create a false short to ground.

This false short to ground will trigger trailer braking to be disabled with customer notification.

Remedy: Dealers are to replace the Trailer Brake Power Module (TBPM).

09/10/2024

General Motors

Manufacturer Customer Satisfaction Program issued

- Program #N242435631 SERIAL DATA GATEWAY MODULE
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this campaign.

⊖ **Learn more about this campaign**

Description: Certain model years and vehicle makes noted in the table above may have a condition where the battery is at risk for a drain following an over-the-air update.

Remedy: Dealers are to reprogram the serial data gateway module.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
