06/06/2008		Hal Jones Automotive Portland, OR 503-288-1130 6 Customer Favorites	<b>Vehicle serviced</b> - Alternator replaced - Battery/charging system checked - POTENTIAL ODOMETER ROLLOVER

FYI, this vehicle has a 5-digit odometer so it probably reset to zero when mileage exceeded

99,999. Any reported mileage since then is potentially unreliable.

The mileage reported here conflicts with this vehicle's odometer history. Ask a mechanic or

the seller to confirm the actual mileage - this entry may just be a clerical error.

## Glossary

### Failed Emissions Inspection

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

### Ford or Lincoln Mercury Recall

The Ford Motor Company provides CARFAX with Field Service Action and recall information regarding safety, compliance and emissions programs announced since 2000 for a specific vehicle. For complete information regarding programs or concerns about this vehicle, please contact a local Ford or Lincoln Mercury Dealer.

### Mileage Inconsistency

If an odometer reading is less than a previous reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or a qualified mechanic.

**Odometer Rollover**

Older vehicles often have 5-digit odometers that roll over to zero when the mileage exceeds 99,999.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
