🕒 [Learn more about this recall](#)

**Description:** Mercedes-Benz AG (MBAG) the manufacturer of Mercedes-Benz and Freightliner vans, has determined that on certain platform 907 (VS30) Sprinter vehicles, the retaining washer on the bolt that connects the brake pedal to its bearing block could come loose. If the retaining washer comes loose, over time it could detach from the bolt, and in the worst case and with ongoing use of the brake pedal, the bolt may work its way out of the bearing block on one side. If this occurs, the brake lamp switch may become permanently activated even when the brake pedal is not pressed. If the brake lamps are permanently illuminated, it would not be possible for following traffic to determine the braking intention of the vehicle, which could increase the risk of a crash. DVUSA will conduct a voluntary recall campaign. Authorized Mercedes-Benz or Freightliner customers affected by this measure will be informed about the recall and the necessary next steps in writing and will receive notice through the interim customer notification.

If this occurs, the brake lamp switch may become permanently activated even when the brake pedal is not pressed. If the brake lamps are permanently illuminated, it would not be possible for following traffic to determine the braking intention of the vehicle, which could increase the risk of a crash.

**Remedy:** DVUSA will conduct a voluntary recall campaign. Authorized Mercedes-Benz or Freightliner customers affected by this measure will be informed about the recall and the necessary next steps in writing and will receive notice through the interim customer notification.

**Description:** Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vans, has determined that on certain Sprinter vehicles from platform 906 (NCV3), the Engine Control Unit (ECU) software, Transmission Control Unit (TCU) software, and Dosing Control Unit (DCU) software does not correspond to current series production specifications. An authorized Mercedes-Benz Sprinter dealer will update the Engine Control Unit (ECU) software, Transmission Control Unit (TCU) software, and Dosing Control Unit (DCU) software.

⊖ [Learn more about this recall](#)

**Description:** Mercedes-Benz AG (MBAG), the manufacturer of Mercedes-Benz Sprinter Vans, has determined that on certain Sprinter (907 platform) vehicles, a component of the park lock system might wear due to specific driver parking practices and impair the safe parking of the vehicle. If the vehicle is not properly secured in accordance with parking instructions in the operator's manual (including usage of the parking brake), it cannot be ruled out that the vehicle might roll away from its parked position under certain circumstances. Thus, the risk of an accident could increase. MBUSA is conducting a voluntary recall. An authorized Mercedes-Benz Sprinter dealer will update the software of various control units (Direct Select Module, Electronic Ignition Switch Module, Electronic Stability Program Module, and Transmission Control Unit) on the affected vehicles.

If the vehicle is not properly secured in accordance with parking instructions in the operator's manual (including usage of the parking brake), it cannot be ruled out that the vehicle might roll away from its parked position under certain circumstances. Thus, the risk of an accident could increase.

**Remedy:** MBUSA/DVUSA is conducting a voluntary recall. An authorized Mercedes-Benz Sprinter dealer will update the software of various control units (Direct Select Module, Electronic Ignition Switch Module, Electronic Stability Program Module, and Transmission Control Unit) on the affected vehicles.

## Glossary

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
