No accidents or damage reported to CARFAX

**6** Service history records

At least 1 open recall

**44** Detailed records available

**155,711** Last reported odometer reading

This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 2/18/25 at 3:03:10 PM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### Additional History

Not all accidents / issues are reported to CARFAX

### Summary

#### Total Loss

No total loss reported to CARFAX.

No Issues Reported

#### Structural Damage

No structural damage reported to CARFAX.

No Issues Reported

#### Airbag Deployment

No airbag deployment reported to CARFAX.

No Issues Reported

#### Odometer Check

No indication of an odometer rollback.

No Issues Indicated

#### Accident / Damage

No accidents or damage reported to CARFAX.

No Issues Reported

#### Manufacturer Recall

Recall Reported

At least 1 manufacturer recall requires service. Check for open recalls or schedule dealer service on GM vehicles at recalls.gm.com.

**Basic Warranty**

Original warranty estimated to have expired.

**Warranty Expired**

**Title History**

**Summary**

**Damage Brands**

Salvage | Junk | Rebuilt | Fire | Flood | Hail | Lemon

No Problem

**Odometer Brands**

Not Actual Mileage | Exceeds Mechanical Limits

No Problem

09/13/2000		General Motors	<b>Manufacturer Non-Compliance recall issued</b> - NHTSA #00V097 - Recall #N000045 FRONT SAFETY BELT COMPLIANCE - Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ [Learn more about this recall](#)

**Description:** Light duty pickup trucks. The seat belts fail to conform to the requirements of FMVSS No. 209, "Seat Belt Assemblies."

The seat belts may not restrain an occupant properly in the event of a crash.

**Remedy:** Dealers will replace both the front driver and passenger seat belts with new seat belts free of charge.

01/09/2001		General Motors	<b>Manufacturer Safety recall issued</b> - NHTSA #00V345 - Recall #N000093 FRONT BRAKE PIPE CONTACT WITH BODY CROSS SILL - Status: Remedy Available  Locate an authorized General Motors dealer to obtain more information about this recall.
------------	--	----------------	--

⊖ [Learn more about this recall](#)

**Description:** Light duty pickup trucks and sport utility vehicles. Some of these vehicles have a clearance condition between the front right-hand brake pipe and the body cross sill that could decrease to the point of allowing contact during the life of the vehicle. If contact occurs and the brake pipe becomes damaged, in half of the brake system there can be a loss of brake fluid and pressure. The brake warning lamp will be activated when the brake fluid level reaches the indicator limit.

During braking, the pedal will be lower than normal and stopping distances will be longer. If this occurs when stopping distance is limited, a crash could occur.

**Remedy:** Dealers will inspect the front right-hand brake pipe for wear. If there are signs of wear, this section of the brake pipe will be replaced with a new designed brake pipe section. If there are not signs of wear on the brake pipe, the dealer will install a spacer clip to ensure sufficient clearance between the brake pipe and the body cross sill free of charge.

<div style="border: 1px solid blue; padding: 10px;"> <p><b>Description:</b> Certain pickup trucks have galvanized-braided-steel tailgate support cables used to support the tailgate in the full open (horizontal) position. Over time these cables can corrode and fracture when loads are applied to them.</p> <p>If one cable fractures, the remaining cable may retain the tailgate in a horizontal position. If both cables fracture, the tailgate would drop and strike the top surface of the rear bumper. If anyone is sitting or standing on the horizontal surface of the tailgate when both cables fractured, they could fall and be injured. On vehicles without a bumper, the tailgate may drop to a lower position.</p> <p><b>Remedy:</b> Dealers will replace the galvanized support cables with stainless steel support cables. In addition, dealers are to inspect the tailgate hinge and replace it, if necessary free of charge.</p> </div>

### **Failed Emissions Inspection**

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

### **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### **Manufacturer Recall**

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### **New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
