⊖ **Learn more about this recall**

Description: Toyota is recalling certain Toyota racing development (TRD) brake kits, P/N PTR09-35070, and TRD high-performance brake kits, P/N PTR09-35100, installed by Toyota vehicle processing centers and sold by Toyota dealers as an optional accessory for model year 2007 through 2012 Toyota FJ Cruiser vehicles. The subject trd brake kit is specifically designed for the front wheels of 2007-2012 Model Year FJ Cruiser vehicles. Due to the shape of the outer brake tube of the brake kit, the clearance between the outer brake tube and a trd 16 inch 6-spoke alloy wheel is minimal. If wheel balance weights are installed in an incorrect location, there is a possibility that the outer brake tube could be damaged due to interference with the balance weight, and brake fluid could leak from the damaged tube.

If a brake tube becomes damaged and leaks fluid, it may result in increased stopping distances, and in some cases, loss of vehicle front braking performance, which could increase the risk of a crash.

Remedy: All known owners of 2007-2012 Model Year FJ Cruiser vehicles will be notified by first class mail. If the vehicle is equipped with one of the trd brake kits, the brake caliper outer brake tube will be replaced with a newly designed one at no charge. During this service, if necessary, the dealer will make wheel balance adjustments. This remedy will be performed even if the vehicle has original equipment 16 inch or 17 inch wheels or trd 16 inch beadlock ring type wheels, which are not affected by the condition, to assure sufficient clearance in the event wheels are changed at a later time. Notification to owners began on December 17, 2012. Owners may contact Toyota customer experience center at 1-800-331-4331.

⊖ **Learn more about this recall**

Description: Toyota motor corporation (Toyota) is recalling certain model year 2007-2013 FJ Cruiser vehicles manufactured January 25, 2006 through February 23, 2013 and equipped with a Toyota auxiliary driving lamp kits mounted to the front bumper. These lamp

assemblies include 55 watt bulbs and due to this wattage and mounting angle, the combination of the upper beam headlamps plus the auxiliary lamps are too bright and exceed the maximum light output allowed for an upper beam headlamp. Therefore, these vehicles fail to conform to Federal Motor Vehicle Safety Standard no. 108, Lamps, reflective devices, and associated equipment.

Light intensities above the maximum allowable limit could cause increased glare for oncoming traffic and increase the risk of a crash.

Remedy: Toyota will notify owners, and dealers will replace the 55 watt bulbs with 35 watt bulbs, free of charge. The recall began on June 6, 2013. Owners may contact Toyota at 1-800-331-4331.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 2/23/25 at 6:32:58 AM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Portions of this report have been included under license from Toyota Motor North America, Inc. ("TOYOTA"), License Agreement TMS1013 . This data applies only to vehicle marketed or originally sold in Mexico and the United States of America, including Guam, Saipan, American Samoa, Puerto Rico, the U.S. Virgin Islands and the other United States territories and protectorates with currently open safety or emissions recalls, or service campaigns. While TOYOTA provides data to Carfax Inc. on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall/campaign activity for any Toyota, Lexus or Scion brand vehicle, you must go to <http://toyota.com/recall> or <http://lexus.com/recall>.
