General Motors

**Manufacturer Customer Satisfaction Program issued**

- Program #N242435631 SERIAL DATA GATEWAY MODULE  
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this campaign.

⊖ [Learn more about this campaign](#)

**Description:** Certain model years and vehicle makes noted in the table above may have a condition where the battery is at risk for a drain following an over-the-air update.

**Remedy:** Dealers are to reprogram the serial data gateway module.

09/12/2024

General Motors

**Manufacturer Non-Compliance recall issued**

- NHTSA #24V674  
- Transport Canada# 24519

- Recall #N242447990 FAILED BRAKE FLUID LEAK DETECTION
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

[Learn more about this recall](#)

**Description:** General Motors has decided that certain 2023 model year Chevrolet Silverado 1500 and GMC Sierra 1500 vehicles and 2023-2024 model year Chevrolet Tahoe, Chevrolet Suburban, GMC Yukon, GMC Yukon XL, Cadillac Escalade, and Cadillac Escalade ESV vehicles fail to conform to S5.5.1(a)(1) of Federal/Canada Motor Vehicle Safety Standard (F/CMVSS) No. 135 "Light Vehicle Brake Systems." A driver may not receive an indicator of a loss of brake fluid before the level is below F/CMVSS 135's requirement.

In the event of a brake fluid leak, the vehicle's brake pedal performance may degrade before the BRAKE telltale timely illuminates in accordance with F/CMVSS 135, increasing the risk of a crash. In the event of a brake fluid leak, affected vehicles still meet F/CMVSS 135's stopping-distance requirements.

**Remedy:** General Motors will update the software in the vehicles' Electronic Brake Control Module (eBCM) to correct the condition. For vehicles that are capable of receiving over-the-air (OTA) updates, owners who have accepted applicable terms and conditions will have the opportunity to accept these software changes using OTA technology without having to bring their vehicle to a dealership. Alternatively, owners may schedule to have the updates performed at a GM dealer.

**Glossary**

**First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Manufacturer Recall**

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Service Campaign**

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
